Sky Wisdom from the Ancients...

...From the Cave Dwellers of 40,000 Years Ago - to Malta's Astronomical and Goddess Worship Sites - to Today...Our Dreams & View of the Sky Drive Our Lives

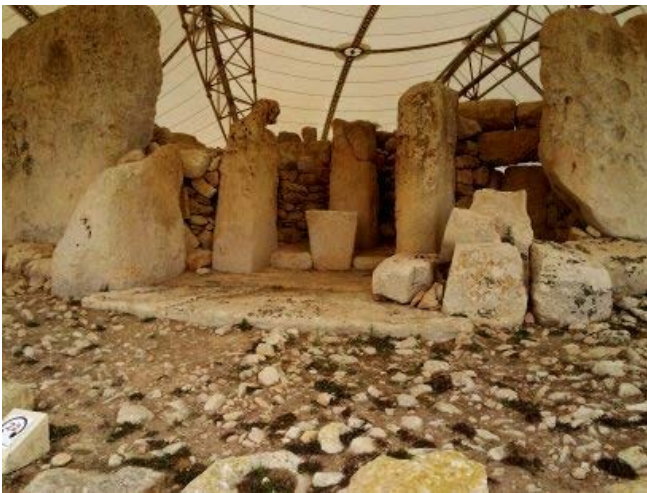

By: **Debbie Keil-Leavitt**

Learn new secrets of the stars and goddesses. Debbie will describe the astrological and other revelations she found during her April 2013 visit to the Ice Age Art Exhibit in London where she observed a remarkable gathering of 40,000 year-old art referencing the sky. Blown away by this, she went on to Malta where more ancient, yet lesser known goddess and astrology sites are found for more powerful connections

with our elders.

**Mnejdra/Hagar Qim: Mnejdra is the
Astrolonomical/Astrological Site Set
Adjacent to the Beautifully Restored Hagar
Qim on the gorgeous Maltese South Coast**

Debbie will be sharing her photos and those of the Sacred Sites Journey's Andrea Mikana Pinkham, along with her powerful discoveries, both through the spell-binding British Museum Exhibit, star-gazing, and powerful site visits – including the Maltese “cart ruts”...what are they REALLY?
