Temples of Malta and Sister island Gozo

Experience the creative and healing energies of the Heaven and Earth Goddess sites on these two beautiful islands.

Before the Pyramids of Egypt, Stonehenge and Newgrange, Malta was a center of ancient wisdom and power. Many locals believe that Malta was the last outpost of Ancient Atlantis, a mountainous region at the Easternmost Point of this mystical land that many feel they “recall” in some form.

In March we are thrilled to be able to offer a very special Pre-Tour Extension with an Equinox Sunrise Visit to one of the Equinox-aligned 7-6000-year-old Temples. This particular Equinox sunrise is the “light returning” after a Total Solar Eclipse – a phenomenal time! To learn more about this magical, mystical place and all that it offers, listen to Debbie’s Malta Conversations here: A conversation about travel to Malta and its ancient temples - older than the Pyramids and Stonehenge and what the acoustical, architectural and astronomical wonders there might suggest. Part 1/Introduction: Ancient Sites of Malta: A discussion on the ancient sites of Malta, their acoustical and astronomical wonders, and the possibilities of what these treasures may offer. <http://youtu.be/iRvVZ8khTA4>
Part 2: Maltese Myth and Legend, Climate Change, the Early “Goddess” Period, and Ggantija. http://youtu.be/0_xTwbfe-JE
Part 3: Sound and Vibration, Ancient Sites of Malta: The Hypogeum’s Amazing Acoustical Wonders, an Ancient Healing Center? <http://youtu.be/RGa6PZ3Vub8>
